

Do Date v1.1

- Adjust the tab view to single view w/ modal segue.
- Move the user interface buttons
- Explore Data Persistence
- Explore Notifications
- Fix the Date picker

Notifications -

```
if dueDate <= 1 day {  
    push notification every 2hrs.}  
if dueDate == ShortTerm {  
    push notification at setTime  
    once per day }  
if dueDate == MidTerm {  
    ... }  
}
```

var ShortTerm = 2...4

var MidTerm = 3...6

var longTerm = 7...

var setTime = Time of Day

var setTime = Time of Day

PROJECT 2

must include Framework

- Core Data
- CoreGraphics
- NotificationCenter
